

# Which Schools Do I Report?

*See chart below for more detailed information*

*Within the Advance Web Site (AWS), if you change the status of a school to “Not Required to Report” you will need to choose one of the following reasons and will also be required to provide the following explanations for the change in status.*

Reason for Not Reporting	Definition	LEA will be expected to provide the following information
<i>Closed: ceased operation</i>	Not in operation in 2015-16 SY; is not expected to operate in the future	Where do students attend instead? And last year in operation or provide date if closed in 2015-16 SY.
<i>Closed: reorganization within district</i>	School merged into another school in the same district; other school is on the list; school divided and original school is no longer open. (Don't forget to add new schools under Add a school.)	Name of school it merged into or name of schools it divided into and last year in operation.
Closed: cross-district restructuring	School ceased to operate under this district due to merger, consolidation, division, etc. involving other district(s)	Name of other districts involved in the restructuring and last year in operation
Inactive	School is temporarily closed for 2015-16 SY, may reopen	When do you expect it to re-open? And last year in operation
No students in actual attendance	No students are in physical attendance at this school. Examples: students tutored to another agency; homebound programs providing short term (less than 50% of the school day) educational services to students enrolled in a regular school; regular school in operation but no students enrolled; non-district school (for student tracking only)	What type of program services does it offer or what provisions are made for students who might otherwise attend this school? And if a non-district school, provide the name of the district to which the school belongs
Half-day services or less	School providing half day (50% of the day or less) educational services to students enrolled in a regular school. Example: Vocational school offering part day classes.  Notes: 50% does not include travel time. 50% reflects half of a typical school day. Preschool programs may have a shorter typical school day.	What type of program services does it offer and what portion of the day is the most the students would attend? And are all students receiving services somewhere else? (Y/N) -- If 'No', change school Status back to "Open and must report"
Not a public school	Not a public elementary or secondary school. Examples: a private school; a parochial school; standalone tuition-based preschool program	What type of non-public school is it?

<p>Not a regular or elementary/secondary school</p>	<p>A facility that does not provide regular education to elementary and secondary students. Examples: administrative site; adult only school; day care facility; tutoring program; after school program; Independent study program; early childhood center; migrant program; summer school program; GED only program; school operated by a third party (e.g., a higher education institution) under contract with the district.</p>	<p>What type of program services does it offer and for what type of attendee?</p>
<p>Charter school operated outside of district's jurisdiction</p>	<p>Charter school operating as a separate district even though the initial directory has the charter school listed as part of an existing district. This exception covers only a charter school that is not affiliated with the district that is in the survey. Note that a district must report on charter schools for which the district is the chartering agency. (Removing the school from the LEA list does not absolve the school of the responsibility to report. The school will be responsible for reporting independently of the LEA.)</p>	<p>What is the chartering agency for this charter school? And is it a charter school operating as its own LEA? Provide the name of the director and legal name of the charter LEA (if different from the listed school name).</p>
<p>Future</p>	<p>School is not in operation in the 2015-16 school year; expected to open in the future.</p>	<p>When is the school expected to open? What other schools will be affected at that time?</p>
<p>Error in school file</p>	<p>Examples: A duplicate listing of a school in the same school list; school never existed under this district; school belongs to another district</p>	<p>Explain the specific error. And if school belongs to another district, provide the district name and location</p>
<p>District is not responsible for providing educational services, or providing any type of educational-related services</p>	<p>School belongs to another district (non-district facility; district includes school in its list to track its students who attend classes there); district provides professional training or services to teachers</p>	<p>If not educational services - What type of services? And if educational services - What is the name of the district responsible for providing educational services at the school? And how many district students attend the school for more than 50% of their day in SY 2015-16?</p>
<p>Short-term juvenile justice facility</p>	<p>Examples: Detention center; emergency crisis shelter; juvenile justice facilities with a transient student population.</p>	<p>Is this a long-term secure facility? If yes, change status back to "Open and must report". If no, how many students stayed at the school/facility for more than 60 cumulative days? If more than 5 students stayed for more than 60 days, change status back to "Open and must report."</p>

<p>Adult justice facility</p>	<p>Example: Correctional facilities where inmates are adults, (or include youth under 21 incarcerated as adults) and received GED services, except: school districts run education programs at adult facilities.</p> <p>Post-adjudication facility where the LEA is offering a secondary education program to juveniles would be required to report. All others would not be required to report.</p>	<p>Is this a district run PK-12 education program at an adult facility? If yes, change status back to "Open and must report."</p>
<p>Juvenile justice or residential treatment facility – not responsible for providing educational services to students</p>	<p>Example: Youth at the juvenile justice or residential treatment facility attend the regular public schools.</p>	<p>Name of districts responsible for providing educational services.</p>
